WHO ARE WE - ITALY 360

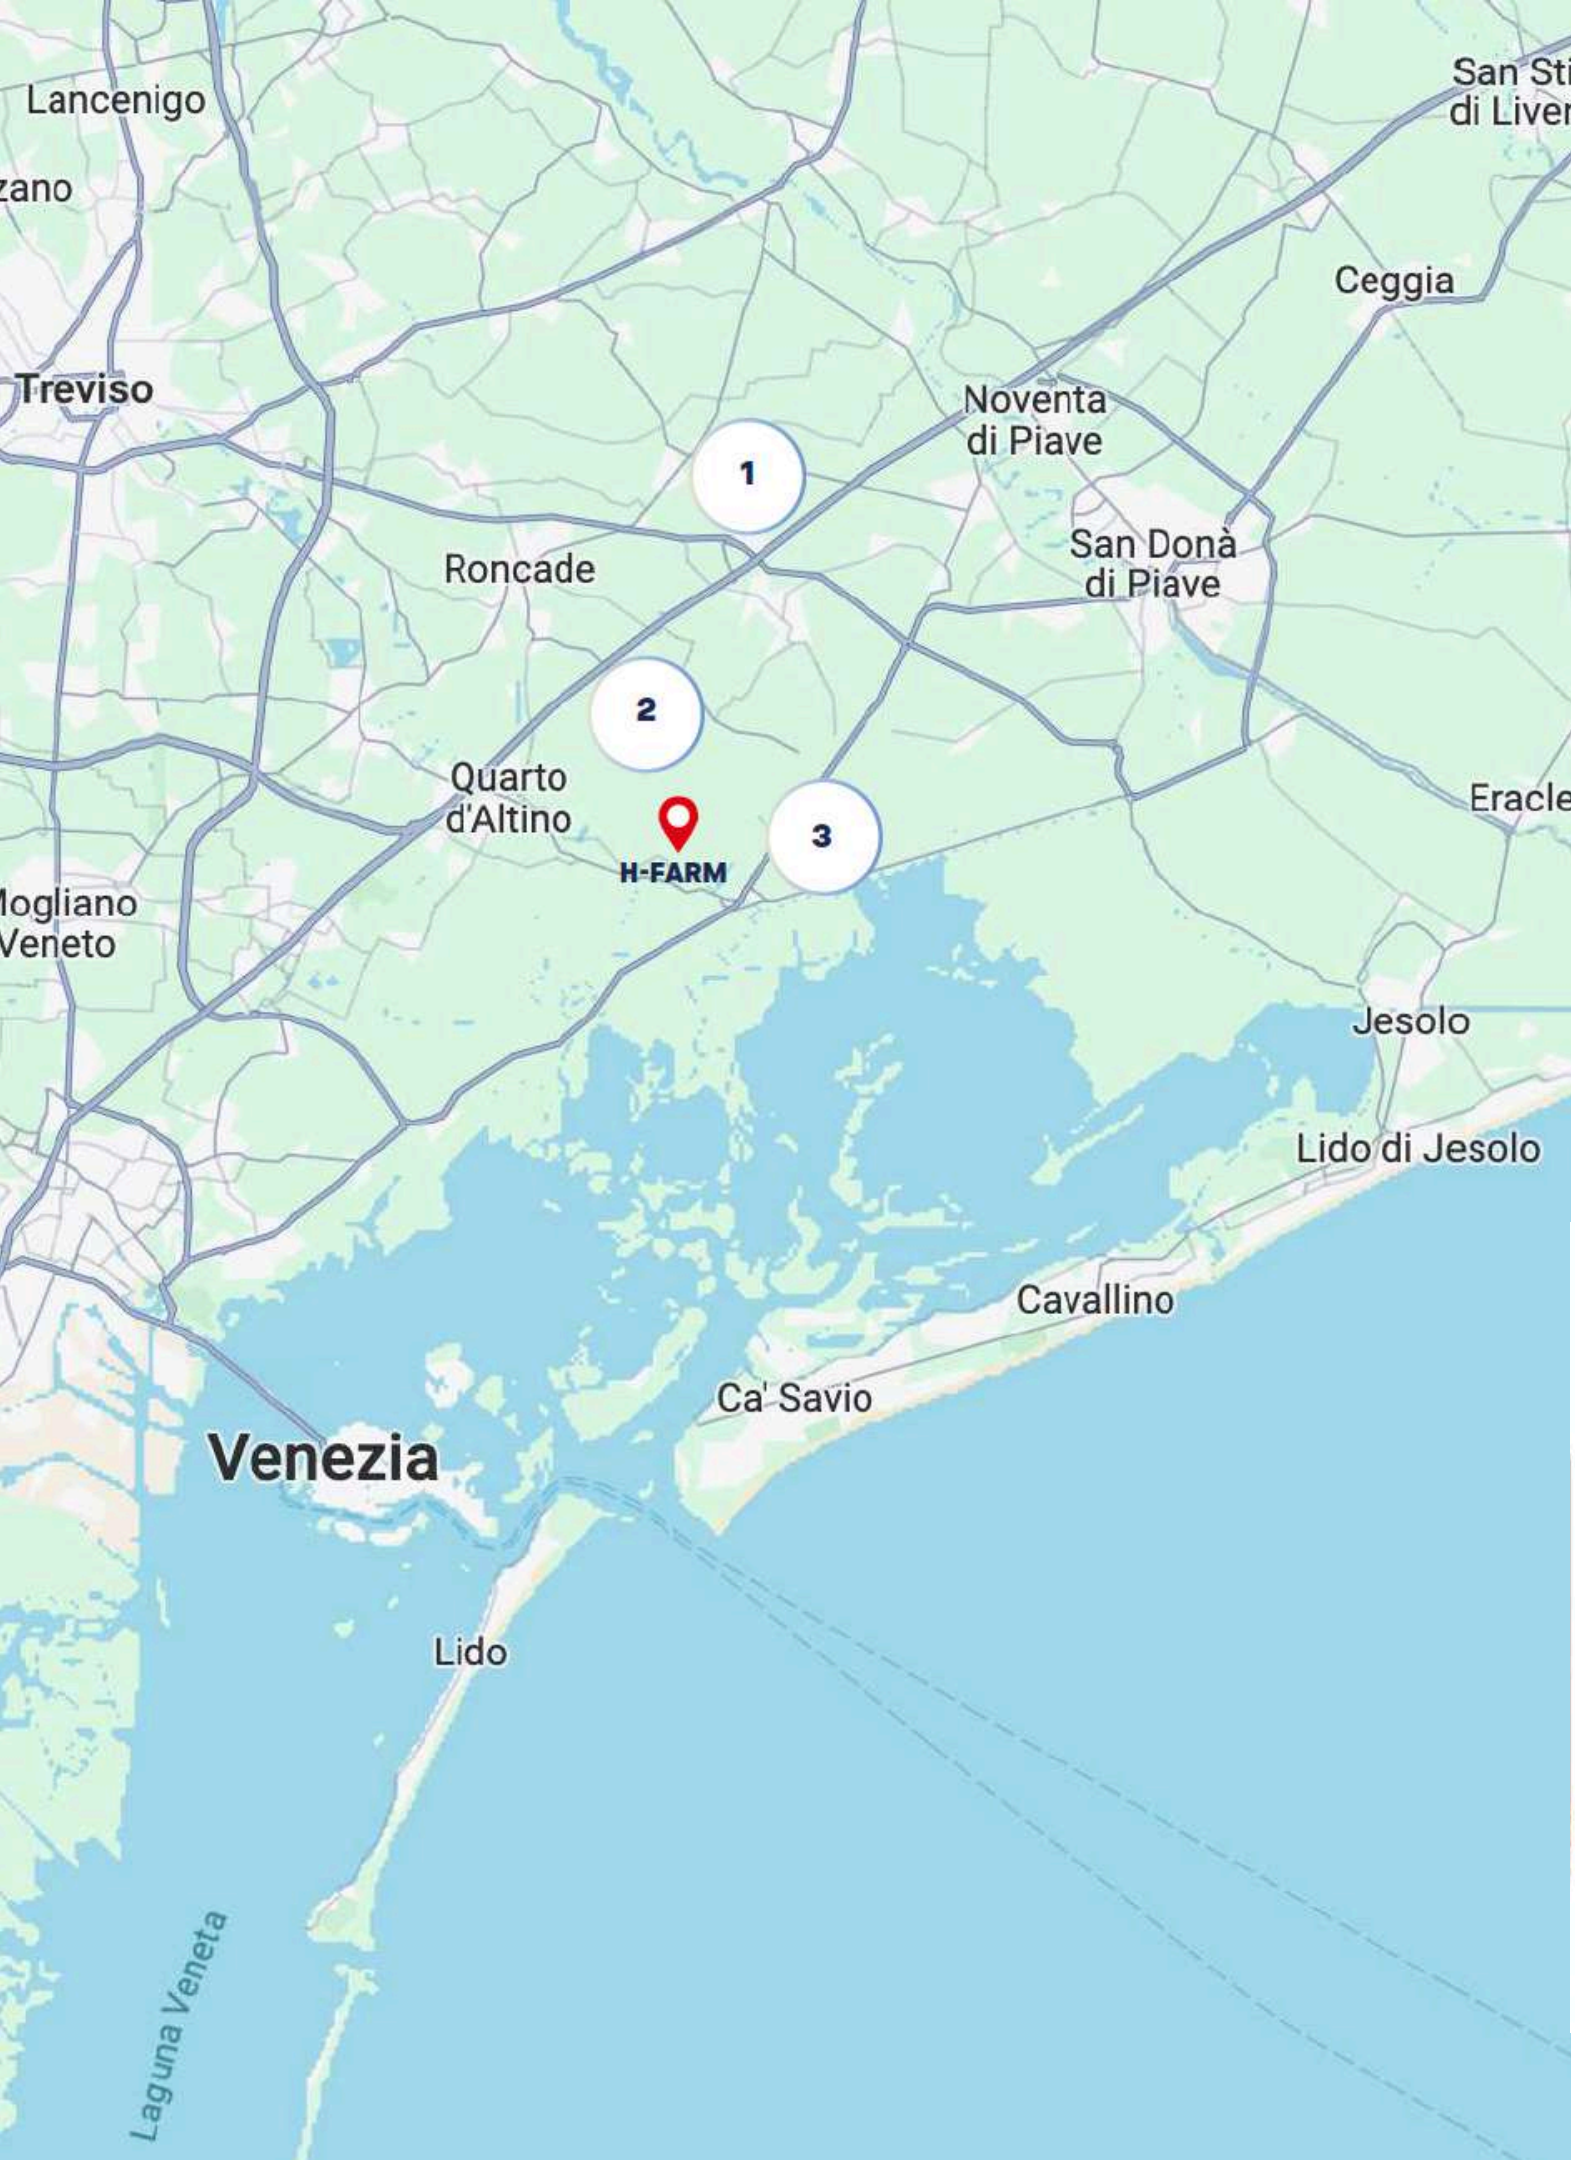

FOOTBALL - LANGUAGE - CULTURE IN ITALY

Football Chance in Italy aims at developing international projects through football. We organise camps, group and individual training football sessions in Italy and abroad for players and trainers, too.

Our UEFA coaches are specialised in advanced training, to improve the player's skills. During our camps our scouting managers discover the most talented players to propose to the Italian Football Clubs.

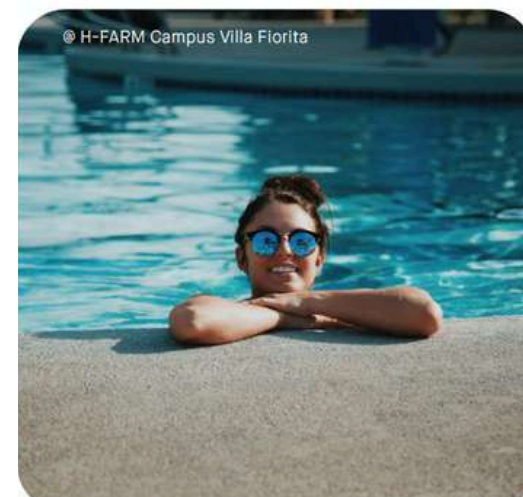

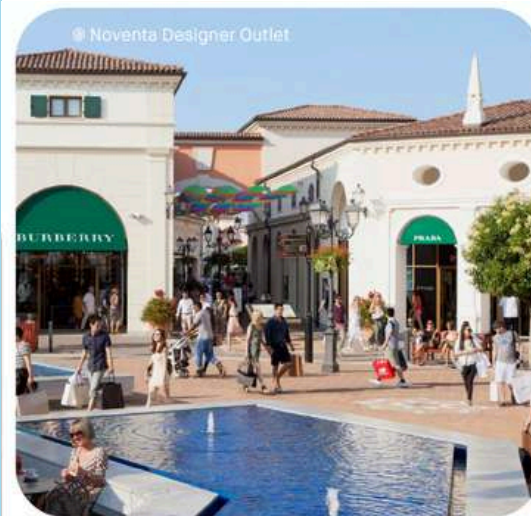

All our camps match football training with tourism and immersion in the Italian culture to enjoy our country, food and traditions!

VENETO, VENICE AREA

In Veneto region, between Treviso and Venice, in the green nature of north of Italy, near the seaside.

A place rich of culture, thanks to the unique story of Venice and of the Venetian Villas. Where Italian food and wines like Prosecco meets the nature of the landscape and a vision on the future.
